

NATIONAL LEVEL TECHNICAL SYMPOSIUM: D^2 - Detect the Disruptor

MEENAKSHI SUNDARARAJAN ENGINEERING COLLEGE

(AN AUTONOMOUS INSTITUTION)

Managed by I.I.E.T Society, Approved by AICTE, New Delhi,

Affiliated to Anna University, Chennai,

Accredited by NAAC with 'A' grade and NBA for programme applied, (Recognized by UGC with 2(f) & 12(b) status)

363, Arcot Road, Kodambakkam, Chennai-600 024, Tamil Nadu, India

EPSILON 2K26

D^2

DETECT THE DISRUPTOR

THE TRUTH IS BURIED.
THE CLOCK IS TICKING.....
IN THE SHADOWS, TRUTH
WAITS.

ROUND 1: CASE INVESTIGATION
ROUND 2: DEBUGGING CHALLENGE
ROUND 3: JUDGEMENT HOUR

16 MAR

TIMING - 9:00am - 1:00pm

VENUE - POWER ELECTRONICS LAB

8122056031 , 8122781495

D²: Detect the Disruptor

“Investigate. Analyze. Solve.”

Organized by: Department of Electrical and Electronics Engineering

Venue: Power Electronics Laboratory

Level: Non-Technical Event

1. Event Overview:

D² – Detect the Disruptor is an interactive investigation-based event designed to test participants' analytical thinking, problem-solving ability, and teamwork. Participants will go through multiple rounds where they must analyze clues, identify problems, debug challenges, and ultimately determine the disruptor behind the case.

This event combines logic, investigation, and technical reasoning to create an exciting and engaging experience for students.

2. Event Nature:

- **Type:** Technical / Investigation-Based Event
- **Category:** Problem Solving + Debugging Challenge
- **Format:** Multi-Round Event

3. Event Objectives:

- To enhance analytical and logical thinking skills.
- To encourage teamwork and collaboration among participants.
- To improve problem-solving and debugging abilities.
- To provide a competitive and engaging technical platform for students.

4. Team Composition:

- Each team can have a maximum of **3 members**.
- Participants must register as a team.
- Inter-college teams are allowed.
- Individual participation is not permitted.

5. Registration Details:

- Early arrivals get priority.
- A limited number of teams will be allowed to participate.
- Teams must complete registration before the deadline.
- Once registered, team members cannot be changed.

6. Event Guidelines:

- Participants must report to the venue at least **30 minutes before** the event begins.
- All teams must follow the instructions given by the event organizers throughout the competition.
- Materials required for each challenge will be provided by the organizers based on the round.
- Participants must complete the assigned challenges within the given time limit.
- Any form of malpractice, copying, or unfair practices is strictly prohibited.
- Teams must maintain discipline and cooperate with the organizing committee.
- Mobile phones or external help may not be allowed during the event unless permitted.
- The decision of the judges and organizers will be **final and binding**.

7.Round Description:

Round 1: Clue Hunt – Investigate the Scene

Objective:

To test the team's observation skills, logical thinking, and ability to analyze clues from a simulated case scenario.

Procedure:

- Each team will receive a case file containing a fictional disruption incident.
- The case file will include clues, evidence cards, witness statements, and suspicious details.
- Teams must carefully analyze the information and identify important patterns or inconsistencies.
- Participants must answer a set of investigative questions based on the provided clues.
- The answers should be supported with logical reasoning from the evidence.

Round 2: Debug the Disruption

Objective:

To test participant ability to identify problems and analyze technical disruptions.

Procedure:

- Qualified teams will be given a technical disruption scenario related to electrical or electronic systems.
- The challenge may include fault analysis, logical errors, or system malfunction problems.
- Teams must carefully study the scenario and identify the possible cause of the disruption.
- Participants must provide the correct explanation and possible solution within the given

time limit.

Round 3: Detect the Disruptor

Objective:

To determine the disruptor behind the case using logical reasoning and deduction.

Procedure:

- Finalist teams will receive a new set of complex questions related to the case.
- The questions will include additional clues, suspect profiles, and hidden contradictions.
- Teams must analyze all the given information carefully.
- Participants must identify the disruptor responsible for the incident.
- Teams must justify their answer using logical explanation and supporting evidence from the case file.

8. Judging Criteria:

Round 1

Criteria	Marks
Clue identification	10
Logical Reasoning	10
Answers for investigation questions	10
TOTAL	30

Round 2

Criteria	Marks
Problem Analysis	10
Debugging accuracy	10

Solution Explanation	05
Team Coordination	05
TOTAL	30

Round 3

Criteria	Marks
Correct Identification	15
Logical justification	15
Clarity of Explanation	05
Presentation	05
TOTAL	40

9. Event Timing: 9am -1pm

10. Safety & Compliance:

- Participants must follow all instructions given by the organizers.
- Handle all materials carefully and maintain discipline during the event.
- Any misconduct or rule violation may lead to disqualification.

11. Expected Outcomes:

- Enhances logical and analytical thinking.
- Encourages teamwork and collaboration.
- Provides practical problem-solving experience.
- Promotes technical engagement among students.

12. Event Coordinators:

1. Dronaditya S
2. Harsini M

13. Event communication:
